ImmoHive

Discount Code Terms for ImmoHive

Supplement to the Terms of Use · Version of 29 October 2026

These Discount Code Terms supplement the Terms of Use and the Privacy Policy for ImmoHive of DataHive GmbH ("DATAHIVE"). They apply only if a USER enters a valid discount code issued by DATAHIVE at checkout. This English version is a translation for convenience. In case of discrepancies, the German version prevails.

1. Discount promotions

DATAHIVE issues discount codes as part of individual promotions, for example at events, in communications to selected prospects or as part of a launch offer. DATAHIVE communicates together with the code which plan it applies to, the amount of the discount and until when the code can be redeemed. The discounted price is displayed before checkout is completed.

Without a valid code, the regular price displayed at checkout applies. Value added tax is governed by section 5 of the Terms of Use.

2. Discount period and transition to the regular price

The discount applies for six consecutive monthly periods from the start of the paid subscription, i.e. after any trial has ended. Thereafter, the then regular price of the selected plan applies automatically. DATAHIVE informs the USER by email in good time before the discount ends of the price that will apply thereafter.

The subscription can be cancelled at any time with effect from the end of the current monthly period, including during the discount period. Access remains in place until the end of the paid period.

3. Redemption

- A discount code can only be redeemed within the communicated period and only for the communicated plan. If no period has been communicated, it can be redeemed until DATAHIVE ends the promotion.
- Discount codes apply only to new subscriptions. One code per promotion can be redeemed per person or per company.
- Discount codes are non-transferable, cannot be combined with other discounts and cannot be paid out in cash.
- DATAHIVE may limit the number of redemptions of a promotion.

4. Expiry of the discount

The discount expires before the end of the six months if the subscription ends, if the USER switches to a different plan or if access is blocked for more than 30 days due to non-payment. If the USER subscribes again later, the regular price applies.

In the event of misuse, in particular multiple accounts or false information to obtain a discount, DATAHIVE may withdraw the discount and charge the regular price from the time of the misuse. The rights under the Terms of Use remain reserved.

5. Changes to and end of promotions

DATAHIVE may change or end promotions for future redemptions at any time. For discount codes already redeemed, the discount continues unchanged for the full period under section 2, provided the subscription continues without interruption.

6. Precedence and acceptance

In all other respects, the Terms of Use and the Privacy Policy for ImmoHive apply. In the event of conflicts, these Discount Code Terms take precedence with regard to price and discount period. By entering a valid discount code and completing checkout, the USER accepts these Discount Code Terms.
